PROFILE

Computer Science student specializing in backend development, with strong programming and IT skills and hands-on experience in software projects. Seeking an internship or entry-level backend role to gain practical experience and contribute to scalable systems.

PROFESSIONAL EXPERIENCE

training

11/2025 – 05/2026

Digital Egypt Pioneers Initiative (depi)

Completed Full Stack .NET Web Development training (DEPI) with strong focus on backend development using C#, ASP .NET Core, Web API, and SQL Server.

training, frontend

ITI

Learning basics of HTML, CSS, JS.

PROJECTS

Cyber Security Company

Website

A modern cybersecurity website built with HTML, CSS, and JavaScript featuring smooth animations and an interactive UI. Designed to present security services in a clean, futuristic, and responsive layout.

ELITE

Website

A premium perfume e-commerce website built with HTML, CSS, and JavaScript. It includes elegant UI design, smooth animations, and responsive product displays for a luxury shopping experience.

Travel Company

Website

A dynamic travel website built using HTML, CSS, and JavaScript with engaging animations. It showcases destinations and tour packages in a visually appealing and fully responsive layout.

Accounting Company

Website

A dynamic travel website built using HTML, CSS, and JavaScript with engaging animations. It showcases destinations and tour packages in a visually appealing and fully responsive layout.

Choose your Own Car with US Now

Website

A professional accounting services website built with HTML, CSS, and JavaScript. It features a clean corporate design with smooth animations and a responsive structure for service presentation.

NeuroCore Admin Dashboard

Dashboard

A hospital admin dashboard built with HTML, CSS, and JavaScript for managing patients and appointments. It features interactive analytics, smooth UI transitions, and a structured responsive design.

iStore Admin Dashboard

Dashboard

An admin dashboard for managing laptops, smartphones, and Apple devices built with HTML, CSS, and JavaScript. It includes dynamic charts, product tracking, and a responsive interface.

Prime Estate Admin Dashboard

Dashboard

A real estate platform built with HTML, CSS, and JavaScript featuring property listings, smooth animations, and a responsive modern UI designed for buyers and investors.

Buying Your Own Car (Team Project)
HTML, CSS, JavaScript
Git-Hub: Mostafa Alshennawy1/Web_Project

IPC Chat System
C++
Built a real-time IPC chat system using sockets and shared memory with multithreading and synchronization for efficient concurrent client handling and reliable performance.

Maze Solver
Python
Built a maze-solving application using AI search algorithms to efficiently determine optimal paths. Focused on applying algorithmic problem-solving techniques for accurate and fast solutions.

Color Guessing Game
Java (OOP Project)
Developed an object-oriented game using core OOP principles, with clean class design, encapsulation, and reusable components for scalable architecture.

Online Shopping System (Java GUI)
Built an online shopping desktop application using Java and GUI and Implemented product display, user interaction, and basic shopping features

Spam Detection (NLP Project)
Python, NLP, Machine Learning. Developed a spam detection system using NLP techniques and machine learning models for accurate text classification, with a user-friendly GUI for message prediction.

Rain Prediction using Dimension Reduction
Python, ML, KNN, SVM. Built a weather prediction model using KNN and SVM with SelectKBest feature selection to enhance accuracy through effective dimension reduction and preprocessing techniques.

SKILLS

TECHNICAL SKILLS

- Programming & Tools: Python, SQL, MySQL, Git, GitHub, VS Code, NetBeans, IntelliJ, Packet tracer.
- IT Tools: Microsoft Office (Word, Excel, PowerPoint), Windows OS, Internet Applications.
- Web Technologies: HTML, CSS, JavaScript

SOFT SKILLS

- Management
- Organization Skills
- Problem Solving
- Communication
- Teamwork

EDUCATION

Bachelor, Computers And Information Technology 09/2023 – 06/2027
Egyptian E-Learning University (EELU)
Very Good

LANGUAGES

English B2	Arabic Native
